

## **Product Information Sheet - DMSO (EN, US)**

DMSO (Dimethylsulfoxide)

- Premium quality
- Pharmaceutical cleanliness
- Organic solvent
- Readily mixable
- Very versatile
- Long shelf life
- Tested by TÜV-Rheinland\*
- Childproof
- Made in Germany

### **Universal solvent (100 ml / 250 ml / 1.000ml)**

Dimethylsulfoxide (DMSO) is a colourless and odourless organic general-purpose solvent for the laboratory and in technology. A high purity of 99.8% corresponds to the regulations of the European Pharmacopoeia. Depending on use, it is easily mixable in any ratio with water. It has many strikingly good characteristics and is extremely versatile to use.

#### **Contains:**

**100 ml / 250 ml / 1.000ml** 99.8% Dimethylsulfoxide cleanest Ph.Eur (CAS Nr: 67-68-5, EC-Nr: 200-664-3) Taric: 29091990

#### **Storage:**

Keep dry, at room temperature, well-sealed and out of the reach of children! DMSO will be crystalline or solid during e.g. transport or in winter at lower temperatures less than 18°C. This is completely normal and quite safe. When warmed in a lukewarm water bath, it will flow again. The remnants can be immediately wiped from materials and surfaces.

***Use the solvent safely! Prior to use, always read the label and product information.***

\* EU conformity is confirmed by TÜV-Rheinland

**Manufacturer:** AQUARIUS pro life (CY) Ltd., Lordou Vyronos 61-63, 6023 Larnaca, Cyprus
